Formative Usability Questionnaire

Purpose: To test how easy our EnviroCollective website prototype is functioning and working well and identify areas that need improvement

Part 1: User Tasks (Quantitative Data)

1. Find the Pollinator in a fast and easy way
2. Find an upcoming event and its details
3. Click a button or link to access a feature and determine whether it works as expected.
4. Find the Repair Cafe and successfully book an appointment
5. Find information about volunteering
6. Find the Pollinator archive easily
7. See when bookings are unavailable
8. Overall travelling the website in a user-friendly way

Part 2: Open-Ended Questions (Qualitive Data)

1. Was the website easy to navigate? Why or why not?
2. Was there anything that was confusing or hard to find?
3. How was the overall look of the website?
4. First impression?
5. Was the Repair Cafe Booking clear?
6. What is one thing that could've been improved?
7. Any important information missing?
