Repair Café

Toss it? No way!

What We Do

The Repair Cafe is a Pop-Up community event where people can bring broken or damaged items to be fixed for free by volunteers. The goal is to promote repairing and reusing items instead of throwing them away, which helps reduce waste and encourages sustainability. The EnviroCollective Network is committed host numerous events throughout the years

Booking Policy

Photo Gallery

Upcoming Repair Opportunities

We Need Volunteers for...

- **Knitting Repair - Sweaters & Scarfs**
- **Jewelry Repair**
- **General Repair**
- ~~Small Appliance Repair~~ **No Spots Available**

Smash Lab

What is This?

The Smash Lab is where kids get to safely take apart anything beyond repair and discover what's actually inside. No pressure to fix it. No wrong way to do it. Just curiosity, a screwdriver, and the deeply satisfying click of a casing finally popping open.

WHAT WE HAVE BEEN UP TO

Eastview Gets Fixed: September By The Numbers

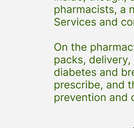

On September 5, Eastview brought us their wobbly, frayed and mysteriously dead. 56 items came in. 31 were fixed, 11 were partly fixed, and only 7 were beyond saving. That's an 85.7% success rate, our best this season!
21 volunteers put in 107 hours, more than four days of repair work crammed into one Saturday. We saw 52 appointments and 12 walk-ins, plus $92.50 in donations for the Youth Empowerment Fund.
That's dozens of things rescued from the landfill. Bring your broken stuff next time. We'll bring the tools!

RESOURCES

Queen City Wellness Pharmacy: More Than Prescriptions

In Regina's Heritage neighbourhood, Queen City Wellness Pharmacy fills prescriptions like any other pharmacy. Step inside, though, and you'll find a whole team under one roof: pharmacists, a nurse practitioner, a recovery coach, Social Services and community partners.

On the pharmacy side, they offer medication reviews, blister packs, delivery, and help managing ongoing conditions like diabetes and breathing problems. Pharmacists can also prescribe, and the team provides help quitting smoking, HIV prevention and care, and gender-affirming care.

LATEST NEWS

Winnipeg Students Ride Transit Free
Winnipeg students in Grades 7 to 12 can now ride the bus for free. Through a new pilot with the Province of Manitoba, Winnipeg Transit is giving youth passes to students aged 11 to 21 at public, independent and homeschool programs. Passes are good until August 2027 for trips to school, work and activities. It aims to make transit more affordable for families. Could Regina be next?

Imagine That: Kids on Buses
If it works as intended, Winnipeg's pilot could pay off in several ways. Every student on a bus instead of in a car drop-off line means less traffic and fewer emissions (SDG 13). Free passes remove a cost barrier, so students can more easily reach school, jobs and activities, which helps families on tight budgets most (SDG 4 and SDG 10). And young people who get used to riding transit are more likely to keep using it as adults, building a more sustainable city over time (SDG 11). The trade-off is busier buses at rush hour, which the City says it will watch closely.

Shawn koch

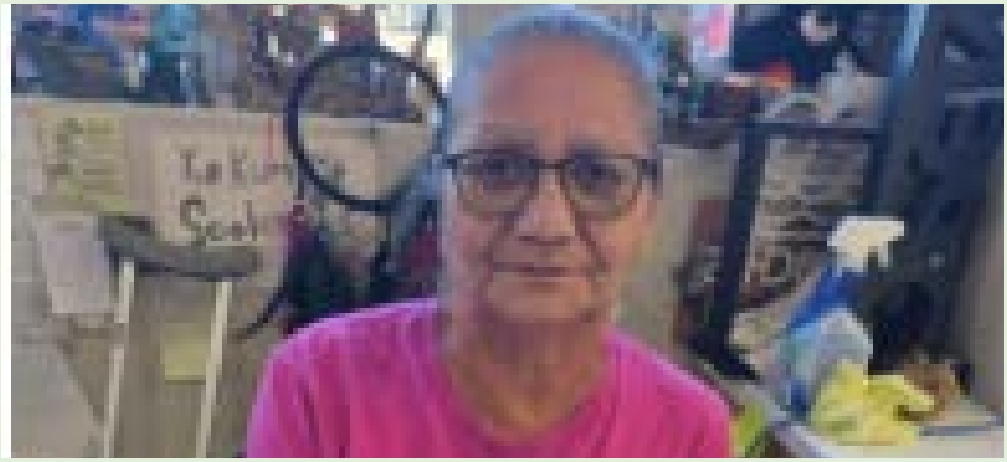

I earned an education degree at McGill and worked in a Housing First program, where I saw the formula that works. I also helped out at the City Hall camp and now here. Once people get the basics sorted, you can ask: what's the next step? How do we make tomorrow a little better, and the next day, and the next? It's incremental, and it's all about relationships built over time. Think of a hockey team. The third line has to touch the ice eventually, so you coach them up instead of cutting them. Being a good parent or teacher means not giving up. Society shouldn't either. There's a lot we can do.

Sarah Kozusko

I didn't choose this neighbourhood to build a business. I was hired to work at Queen City Wellness Pharmacy, and over time I moved into managing it. One day, a woman came in to spend her last five dollars on chips and pop. That didn't sit right with me. So I began bringing cheese strings, oranges and coffee, then shoes, then food bought from Carmichael Outreach. As a manager, I believe you serve the people in front of you. You don't tell them what they need. We've spent seven or eight years trying things, keeping what works and dropping what doesn't. We're a pharmacy, but first we're a safe space. Sleeping on the floor somewhere safe is part of your healthcare. Everything we do is trauma-informed and culturally sensitive. Whether someone needs a coffee and a conversation or a pair of shoes, they're welcome here.
Follow them on Instagram

Solee Kokum

Before Solee was hired, Queen City Wellnes had planned to bring in a security guard. I'd already retired from Pasqua Hospital and home care, so they asked me to join the team instead. That's how Kokum at the pharmacy was born. I keep a tight rein, and the rules are the same for everybody. Most days I'm a banker, a mail carrier, a counsellor and a telephone operator. People leave their ID and money with me because they've been robbed too many times. I hold their mail for six months, and I call before court dates and probation appointments so nobody misses one. Beyond the counter, people can get help with housing applications, harm reduction and finding their way through the health system.

RESOURCES

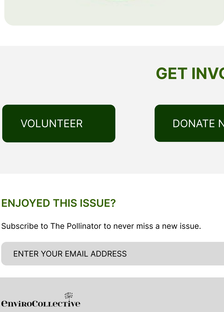

Street Team Finds A New Home

The Regina Street Team has moved from the YWCA to the Nēwo Yōtina Friendship Centre, with John Whitestar as its new coordinator. The team responds to non-emergency calls from people who are homeless or in a mental health crisis, and it offers an alternative to police for non-criminal calls. Team members hand out water, food and other supplies, and connect people to shelters, supportive housing, detox, recovery and other services. Its new home is a non-profit that supports urban Indigenous people and families in Regina. Welcome to your new role, John!

WHAT WE HAVE BEEN UP TO

Coffee and Connection

On September 22, EnviroCollective joined colleagues from across Regina's nonprofit and voluntary sector for Coffee and Connection at the Safe Café in the Conexus Building. The come-and-go morning was a relaxed chance to catch up with familiar faces, meet new people and strengthen relationships across the sector. Events like this remind us that the work of building a greener, more caring community happens together, and we're grateful for the chance to connect.

KIDS & YOUTH CORNER

Micro-Grants for Stduent Action

Regina teachers, have students with a big green idea? Built from donations left by Fridays for Future Regina, the Fridays for Future Youth Empowerment Fund offers micro-grants of $100 to $200 to K–12 educators for student-led environmental projects. Think classroom composting, energy audits, upcycling projects or Earth Day events. Funds can cover supplies, guest presenters, transportation, entrance fees and more. Applications are accepted year-round, with decisions within six weeks. Afterwards, recipients send a short report with photos. Download the application Online , or email info@envirocollective.ca if you'd like help getting started.

WHAT WE HAVE BEEN UP TO

Coffee and Connection

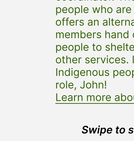

On September 22, EnviroCollective joined colleagues from across Regina's nonprofit and voluntary sector for Coffee and Connection at the Safe Café in the Conexus Building. The come-and-go morning was a relaxed chance to catch up with familiar faces, meet new people and strengthen relationships across the sector. Events like this remind us that the work of building a greener, more caring community happens together, and we're grateful for the chance to connect.

COMMUNITY UPDATES

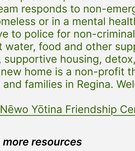

Community Spotlight

Shawn Koch

This issue highlights community initiatives, sustainability efforts, and local climate action in Regina. It features updates from Pepsi Park, Eastview, and the Seniors' Climate Caravan, alongside stories of community activists and local nonprofits.

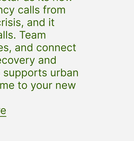

READ MORE →

Sarah Kozusko

This issue explores sustainability, community engagement, and environmental innovation. Highlights include Regina's community clothing swap, regenerative agriculture, geothermal energy, and emerging green technologies.

READ MORE →

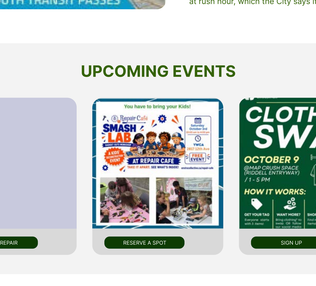

Solee Kokum

This issue highlights community sustainability efforts, environmental innovation, and local changemakers. It explores Repair Café activities, the Miley Tool Trailer restoration project, and recognition of ECN's leadership.

RESOURCES

Street Team Finds A New Home

The Regina Street Team has moved from the YWCA to the Nēwo Yōtina Friendship Centre, with John Whitestar as its new coordinator. The team responds to non-emergency calls from people who are homeless or in a mental health crisis, and it offers an alternative to police for non-criminal calls. Team members hand out water, food and other supplies, and connect people to shelters, supportive housing, detox, recovery and other services. Its new home is a non-profit that supports urban Indigenous people and families in Regina. Welcome to your new role, John!

LATEST NEWS

Winnipeg Students Ride Transit Free
Winnipeg students in Grades 7 to 12 can now ride the bus for free. Through a new pilot with the Province of Manitoba, Winnipeg Transit is giving youth passes to students aged 11 to 21 at public, independent and homeschool programs. Passes are good until August 2027 for trips to school, work and activities. It aims to make transit more affordable for families. Could Regina be next?

Imagine That: Kids on Buses
If it works as intended, Winnipeg's pilot could pay off in several ways. Every student on a bus instead of in a car drop-off line means less traffic and fewer emissions (SDG 13). Free passes remove a cost barrier, so students can more easily reach school, jobs and activities, which helps families on tight budgets most (SDG 4 and SDG 10). And young people who get used to riding transit are more likely to keep using it as adults, building a more sustainable city over time (SDG 11). The trade-off is busier buses at rush hour, which the City says it will watch closely.

LEARN MORE

Rob Deglau – Board Chair

Rob, a lifelong community advocate and former city councillor, champions sustainability and social reform. With a background in small business and community development, he now chairs ECN and leads the Regina Climate Hub, uniting citizens, businesses, and government to advance environmental sustainability, social enterprise, and climate action.

Shari Hildred – Secretary

Shari Hildred, PMP, founded Valmore Consulting Inc. in 2011, bringing over 20 years of expertise in management and project leadership across sectors. Focused on building human capacity, she trains non-profits in leadership, project management, and communication, teaching at the U of R. Shari's achievements include awards in heritage and community service.

Bill Wells – Government Relations

With deep expertise in policy and government relations, Bill has championed sustainable frameworks like the Framework for Recreation in Canada and Parks for All, both endorsed by multiple government levels. A skilled alliance-builder, he has formed strategic partnerships with government, Indigenous groups, and NGOs, advancing impactful policies in recreation, conservation, and sustainable education across Canada.

Lee Dombowski – Board Member & Repair Cafe Volunteer

for education, writing, and environmental stewardship. She holds a Bachelor of Arts in Psychology and Philosophy and is currently completing an Honours Degree in English with a focus on Creative Writing at the University of Regina. Lee combines her academic interests with a commitment to community engagement and environmental action. She believes that curiosity, creativity, and collaboration are key to building

Bev Yuen: Repair Cafe Coordinator

Welcome to Bev Yuen our new Repair Café Ringmaster, proof that somewhere out there is a person who read “thrives in joyful chaos” and thought, yes, that’s my natural habitat. Armed with a clipboard, bottomless optimism, and the uncanny ability to keep volunteers caffeinated and pointed in the right direction, she has bravely stepped into the role of Chaos Coordinator. If anyone can wrangle schedules, soothe surprises, and keep the whole circus humming, it’s Bev.

Mac Findlay – Advisor Youth Empowerment Fund

Mac Findlay (he/him) has been involved in climate organizing and was an organizer with Fridays For Future Regina from 2019 – 2022. He is excited about this opportunity to expand climate and environmental education in schools and sees it as a necessary step toward change. This includes new initiatives that encourage young people to engage in political discourse

ABOUT US

About us.

EnviroCollective Network Inc. is your community's hub for practical, people-powered climate action. We exist to create a nonpartisan space where collaboration thrives and solutions take root. Through initiative, we innovate, teach, fix as well as empower on climate change.

Our Mission

"To network and share resources to support environmental and climate action".

Our Vision

"An inclusive community united in building a sustainable future"

The organization adopted the United Nations Sustainable Development Goals as part of their guiding principles

Our History

FALL 2018

Started in Regina, Saskatchewan in the fall of 2018, the EnviroCollective has become a networking hub for climate education, action and resource sharing. The organization has taken a nonpartisan approach to climate action by being a hub for community engagement and dialogue around climate action and to be a key partner to organizations, businesses and various levels of government looking for a wider audience. By building upon shared values rather than partisan divides we empower our supporters and partners to continue to echo the concerns of their local communities in working towards the adoption of fair, effective, and sustainable climate change solutions

Volunteer Today

Exciting News!

We're on the rise, becoming your go-to hub for information on environmental actions and local sustainability—and we need YOUR help to keep the momentum going!

Join Our Dynamic Team today!

Event Coordinators – ECN hosts 2 to 3 major events each year, and we need enthusiastic planners to make them unforgettable!

Speaker Series Coordinator – Plan and host community information nights on the hottest topics, sparking conversations and inspiring action!

Fund Developer – Drive our fundraising efforts by managing volunteer donations, grant applications, and innovative social enterprises.

Social Media Coordinator – Lead our social media strategies, ensuring vibrant cross-promotions and engaging content across platforms.

Community Engagement Coordinator – Host one or two community gatherings such as Green Drinks which is a global movement where people gather to have informal discussions about environmental issues over drinks in a casual setting.

Youth Coordinator – Work with schools to build eco clubs, empowering the next generation of environmental leaders.

E-Newsletter Reporters – Dive into storytelling, submitting compelling articles and information across our diverse categories.

E-Newsletter Editor – Collaborate with our talented volunteer writers and contributors to deliver engaging articles and reports.

If you're passionate about sustainability and eager to make a difference, we want YOU on our team! Let's create a greener, brighter future together!
Ready to join us?
